Baxter Springs Public Schools USD 508 *iPad Loan Agreement by Student, Parent, and USD 508*

Student:

iPad Number:

Login:

Passcode:

Item Description	Apple iPad, 6th Generation, 32GB
Serial Number/MAC	
Charger (Apple 12 Volt Charging Box & Lightning Cable)	Yes
School Provided Case	Yes

The above iPad is being loaned to me until I graduate or a replacement is issued. The iPad is in good working order unless otherwise indicated. A new contract will be issued if/when iPad is replaced. It is my responsibility to care for the iPad and ensure that it is retained in a safe environment. A yearly \$40.00 rental fee is assessed to cover the cost of property insurance and if there is a claim for screen (digitizer) damage the student and/or parent are responsible for the \$40.00 deductible, per occurrence. When catastrophic damage occurs (damage or loss in excess of a broken digitizer) the student and/or parent are responsible for the \$100.00 deductible, per occurrence. *The catastrophic deductible will increase by \$25 for each additional occurrence, up to \$150.00, at which time eligibility for iPad rental will be forfeited. This scaling deductible decreases by \$25 per year without claims, to a minimum of \$100.00.* If the loss or damage is not covered by insurance the Student or Parent will pay the full replacement value of the equipment to USD 508.

In addition to the iPad, the above student will be issued an Apple Brand 12 Volt Charging Box & Lightning Cable. To help identify charger boxes, each charger comes with a label. To ensure that students don't "borrow" another student's charger, they must return the charger box issued to them with the label attached. If at any time the label is loose or falls off, they can bring the label and charger box to the tech office where we will attach a new label. However, at the end of the year, if the student tries to return a charger box without a label, we will have to assume that it is not the charger box we issued them and they will be charged \$20 for a new replacement charger box.

_____ (Initial)

This iPad and case is the property of Baxter Springs Public Schools and is being loaned to the student only for educational purposes during the Academic School year. Students may not deface or destroy this property in any way. Inappropriate material on the iPad may result in the student losing their right to use this iPad and potential prosecution. The equipment will be returned to the school on a date determined by USD 508 or sooner if the student is suspended or expelled from school, the Student leaves USD 508 or Student fails to comply with the terms of this agreement or the school's Acceptable Use Policy. Student agrees that in the event the iPad is out of Student's possession for a period of 48 hours or Student believes the iPad has been stolen, the Student will immediately notify a BHS administrator and file a report with Baxter Springs Police Department.

Student is responsible for the cost of replacement or repair of the iPad for any loss not covered by insurance. In addition, Student and Parent agree to indemnify USD 508 against any claim, suit or damage occurring during or resulting from Student's possession or use of the iPad, including, but not limited to any claim for infringement or violation of applicable trademarks and copyrights attributable to Student's use of the District's iPad.

The District's iPad may be used only in accordance with the District's policies and rules, including the District Acceptable Use Policy and the school iPad Policies and Procedures. Student acknowledges and agrees that Student's use of the District's iPad is a privilege and Student acknowledges Student's responsibility to protect and safeguard the District's iPad and to return the same in good condition and repair.

The District hereby acknowledges receipt of the sum of \$10 - \$20 - \$40 for the rental fee, determined by Federal lunch program classification. Student and Parent agree the iPad equipment is to be used only for school purposes and in accordance with USD 508 computer use policies and instruction. If Student fails to return the iPad as provided by this agreement, USD 508 will presume Student intended to retain possession with a criminal intent.

Signing below indicates that you and your child agree to the above terms, including responsibility for the iPad both at school and outside of school.

CUSTODY LAW NOTIFICATION

Custody disputes must be handled by the courts. By law, if parents are legally separated or divorced, each parent has equal rights to the custody of the children *UNLESS* one of them has a signed court order that indicates otherwise. The school has no legal right to refuse biological parent's access to their children and/or school records.

If a parent has a signed, current court order limiting the other parent, or any other person, the school *MUST HAVE A COPY* of the court order on file. If a copy is not on file, the school is required by law to release children to their parents with proper identification. Situations that put the welfare of students in question will be handled at the discretion of the Principal/designee. In situations that become a disruption to the school, the Baxter Police Department will be contacted, and an officer will be requested to intervene.

Parents are asked to make every attempt not to involve schools in custody matters. Please have current information on file for your children.

Acceptable Use Policy (Computers, Networks, & Internet)

The Internet is a tool for life-long learning. It is a necessary tool for Baxter Springs Public Schools to develop students ready to live and work in the 21st Century.

With the privilege of Internet access comes responsibility and accountability. Baxter Springs Public Schools expects that all students using the District network and the Internet services it provides will:

1. Have the permission of their parent or guardian.
2. Agree to abide by the policies and responsible use set forth in the Baxter Springs Public Schools Acceptable Use Policy.
3. Understand the use of the District network and Internet services is a privilege which may be terminated by the school or district for failing to abide by the policies described in the Acceptable Use Policy.

As the parent or guardian of a Baxter Springs Public Schools student we are asking that you review the policy and guidelines set in this Acceptable Use Policy and that you go over the Acceptable Use Policy with your child so that everyone understands and is in agreement.

Privacy is not guaranteed

The Superintendent, principals, and other administrators may review files and monitor all student computer and Internet activity to maintain system integrity and ensure that users are acting responsibly. Teachers and administrators may monitor ongoing student Internet activity to maintain system integrity and ensure that student users are abiding by this policy and are acting responsibly. Privacy is not guaranteed. Electronic messages and files stored on school-based computers may be treated like school lockers.

Use is a Privilege

Use of the network and the Internet is a privilege, not a right. Students violating policies pertaining to standards of conduct or network/Internet use shall be subject to revocation of privileges and potential disciplinary and/or appropriate legal action.

Liability

Baxter Springs Public Schools makes no assurances of any kind, whether expressed or implied, regarding any Internet services provided. The school district will not be responsible for any damages the user suffers. Use of any information obtained via the Internet is at the user's own risk. The school district will not be responsible for any damages users suffer, including -- but not limited to -- loss of data resulting from delays or interruptions in service. The school district will not be responsible for the accuracy, nature, or quality of information stored on school district diskettes, hard drives, or servers; nor for the accuracy, nature or quality of information gathered through school district provided Internet access. The school district will not be responsible for personal property used to access school district computers or network for school district-provided Internet access. The school district will not be responsible for unauthorized financial obligations resulting from school district-provided access to the Internet.

Parental Advisory

The global and changing nature of the Internet network's contents make it extremely difficult for the school district to completely regulate and monitor the information received or sent by students. As such, the school district cannot assure parents that students will be denied access to undesirable materials or sending or receiving objectionable communications. Parents and guardians of students should be aware that some material accessible via the Internet may contain items that are illegal, defamatory, inaccurate, or potentially offensive to some people. In addition, it is possible to purchase certain goods and services via the Internet, which could result in unwanted financial obligations for which a student's parent or guardian would be liable. While the school district's intent is to make Internet access available in order to further educational goals and objectives, students may find ways to access other materials as well.

Acceptable Use

The educational value of student Internet access is the joint responsibility of students, teachers, parents and employees of Baxter Springs Public Schools. Since access to the Internet is a valuable and limited resource, students are expected to place a premium on the quality of use. Taking up valuable network resources to pursue frivolous ends, not consistent with the mission of Baxter Springs Public Schools is prohibited. **All use must be consistent with the educational mission and goals of the school district.**

Unacceptable Use for Student Users

- Users shall not use school district computers or networks for purposes of personal profit, any non-instructional, or non-administrative purpose (e.g., activities for personal profit).
- Users shall not use a computer for unlawful purposes, such as the illegal copying or installation of software, or violation of copyright laws.
- Users shall not erase, rename, or make unusable anyone else's computer files, programs or disks.

- Users shall not use or try to discover another user's password.
- Users shall not copy, change or transfer any software or documentation provided by the school district, teachers, or another student without permission from the superintendent or his designee.
- Users shall not write, produce, generate, copy, propagate, or attempt to introduce any computer code designed to self-replicate, damage, or otherwise hinder the performance of any computer's memory, file system, or software. Such software is often called a bug, virus, worm, Trojan Horse, or similar name.
- Users shall not deliberately use the computer to annoy or harass others with language, images, or threats.
- Users shall not deliberately access or create any obscene or objectionable information, language or images.
- Users shall not intentionally damage the system, damage information belonging to others, misuse system resources, or allow others to misuse system resources.
- Users shall not tamper with computers, networks, printers or other associated equipment except as directed by the teacher or the superintendent or his designee.
- Users shall not take home technology equipment (hardware or software) without permission of the supervisor.
- Users shall not gain unauthorized access to resources or entities.
- Users shall not invade the privacy of individuals.
- Users shall not post anonymous messages.
- Users shall not use the network for commercial or private advertising. The Internet, web pages, and other technology shall not be used for private or commercial offerings of products or services for sale, or to solicit products or services or to raise funds for non-district related activities or organizations.

The professional laboratory shall be required to have detailed written specifications to assure chain of custody of the specimens, proper laboratory control, and scientific testing.
- d. Students participating/attending school sponsored extracurricular activities may be randomly required to submit to an alcohol breath analyzer test to determine the presence of alcohol.
- e. All aspects of the drug use, possession, and/or distribution-testing program, including the taking of specimens, will be conducted so as to safeguard the personal and privacy rights of students to the maximum degree possible. The test specimen shall be obtained in a manner designed to minimize intrusiveness of the procedure. In particular, the specimen must be collected in a restroom or other private facility behind a closed stall. The student will empty their pockets and remove their coat and other excess clothing prior to entering the restroom or other private facility. The principal shall designate a drug laboratory employee, a coach, or school employee of the same gender as the student to accompany the student to a restroom or other private facility. The monitor shall not observe the student while the specimen is being produced, but the monitor shall be present outside the stall to listen for the normal sounds of urination in order to guard against tampered specimens and to ensure an accurate chain of custody. The monitor shall verify the normal warmth and appearance of the specimen. If at any time that a student is tampering with the specimen, the monitor may

stop the procedure and inform the principal, who will then determine if a saliva sample should be obtained.

- f. If the initial drug test is positive or the validity of the test is in question, the initial test result will then be subject to confirmation by a second and different test of the same specimen. In order to keep the results of the initial testing confidential, the school district may also choose a certain number of samples for a conformation test. A specimen shall not be reported positive unless the second is positive for the presence of an illegal drug or the metabolites thereof.
- g. If the test for any student has a positive result, or the validity of the specimen is in question, the laboratory will contact the parents or guardians and solicit any information on medication that would create a positive test. A medical review officer will confirm the positive result and contact the principal/assistant principal with the results. The principal/assistant principal will contact the athletic director, activities director, the student, the head coach/head sponsor, and the parent or guardian of the student and schedule a conference either by phone or in person. During the conference, the principal will solicit any explanation of the positive result.
- h. If the student asserts that the positive test results are caused by something other than consumption of an illegal drug, performance-enhancing drug, or alcohol by the student, then the student will be given an opportunity to present evidence of such to the principal, assistant principal, and/or the athletic director. The Baxter USD 508 School District will rely on the opinion of the laboratory that performed the confirmation test in determining whether the positive test result was produced by other than consumption of an illegal drug, performance-enhancing drug, or alcohol. The principal, assistant principal and the athletic director, will make the decision within five working days.
- i. This decision may be appealed in writing to the Baxter USD 508 School District's superintendent within five days. The superintendent will make a written decision within five working days.

- k. A student that has tested positive for illegal drugs or performance-enhancing drugs will be required to undergo one or more additional drug use tests to confirm that the student is no longer using illegal drugs or performance-enhancing drugs before he/she may rejoin an activity. The Baxter USD 508 School District will rely on the opinion of the laboratory that performed or analyzed the additional drug use test in determining whether a positive result in the additional drug test was produced by illegal or performance-enhancing drugs used by the student that caused the first positive result or by more recent use. The cost of the retest will be the obligation of the student or the parent custodial guardian.
- l. All parents or guardians of students who test negative for illegal drugs of performance-enhancing drugs in the initial screening will be contacted by personnel of the Baxter USD 508 School District within five working days after testing.

GREENBUSH HOME LANGUAGE SURVEY

Upon enrollment, every student or parent/guardian must be given a Home Language Survey. This survey will be used to determine which students should be assessed for English proficiency. Knowledge of, or exposure to another language does not, in and of itself, qualify a student for ESOL services. If a language other than English is indicated in any of questions 1-4, the student will be assessed to determine eligibility for English for Speakers of Other Languages (ESOL) services. The assessments approved by Kansas State Department of Education include: The Language Assessment Scales (LAS)/LAS LINKS/Pre-LAS, the IDEA Proficiency Test (IPT)/Pre-IPT, the Language Proficiency Test Series (LPTS), and the Kansas English Language Proficiency Assessment (KELPA)/KELPA-P. If a student scores below proficient/fluent in any of the language domains: listening, speaking, reading, or writing, s/he is eligible for ESOL services. Please complete one form for each child.
